

TECHNICAL INFORMATION**25mm/50mm TIMBERCRAFT WOOD VENETIAN BLINDS****PRODUCT DESCRIPTION**

Tough, natural and warm our designer range of Wood Venetian Blinds are hand built in our own factory. Each finished blind is complimented with matching timber bottom rail, tassels and a moulded pelmet to cover the colour co-ordinated headrail mechanism, offering privacy, light control, along with a consistent uniform finish.

25mm/50mm TIMBERCRAFT VENETIAN BLINDS

Manufactured from the finest hard-wearing, tight-grained woods, ecologically approved and able to resist the bowing associated with some timber blinds, the Timbercraft slatting is available in 25mm and 50mm slats up to 2743mm wide. This attractive range of elegant colours compliments the natural beauty of the wood tones.

THE TIMBERCRAFT SELECTION OF SLATS

For the discerning client who aspires to the ultimate in timber blinds, the answer is the Timbercraft Collection. Manufactured from the finest wood, every slat is guaranteed as genuine timber, showing colours and grain variation of real beauty. The Timbercraft collection offers 24 finishes; including an elegant range of twelve wood grain finishes, four painted styles, an elite range of three high gloss finishes, all using natural basswood. For a slightly different appearance there are five wood grain finishes made from eco-friendly bamboo.

50mm TIMBER IMPRESSION VENETIAN BLINDS

Timber Impressions offer the beauty of wood appearance, manufactured from synthetic thermoplastic, this revolutionary material combines the beauty of natural wood with the durability of man-made materials. The slatting is available in 50mm slats up to 2740mm wide. The finished blind is complimented with matching Timber bottom rail, tassels and a moulded pelmet to cover the colour co-ordinated head rail mechanism.

CLASSIC HEADRAIL

Classic headrail with headrail dimensions of 57mm wide by 51mm deep is available in a range of attractive colours to compliment the timber selected. The Headrail is complimented by a matching moulded timber pelmet, that can be supplied with a rebate for blinds that are fitted outside the recess. The Classic headrail allows for an extensive range of 25mm and 38mm wide ladder tapes, which can greatly aid the demands for privacy and room darkening, by hiding the cord holes. Classic headrail can be used for both 50mm and 25mm slat widths.

CONTINENT HEADRAIL

Continent headrail is manufactured from cold rolled steel 0.5mm thick, corrosion resistant, with a baked enamel surface. Continent rail dimensions are 38mm wide by 28mm deep with rolled edges at the top.

The Continent headrail is suitable for 25mm slat widths, however, the blind size is restricted to a maximum of 3 square metres. 25mm blinds in excess of three square metres will be upgraded to the Classic headrail.
